DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-15, drawn to a polymer blend.

Group II, claims 16-18, drawn to fibers and fabrics made therefrom.

Group III, claim 19, drawn to "use" of a blend.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: inventions of Group I and Group II are drawn to products, and while the Group II product is made from the Group I composition product, the Group II invention is not a method of making or a method of use of the Group I product. The Group I invention may be used in methods that produce other articles. Further, the Group III invention is drawn to a method of use of a blend, but the blend recited is not the same in scope to the Group I composition.

A telephone call was made to William D. Jackson on 8 May 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nathan M. Nutter whose telephone number is 703-308-2443. The examiner can normally be reached on Monday-Friday 9:30 am to 6:00 pm.
